Getting Started Become Part of Our Family

Thank you for your interest in opening an in home day care with Infant Toddler Family Day Care! ITFDC has been bringing families together with our network of experienced and professionally trained childcare providers since 1983. Our nurturing program provides care and early childhood development to children from six weeks of age to school age.

With ITFDC, children benefit from the special experience of forming lasting relationships with their provider in a small mixed age group setting where children learn and grow through play. ITFDC helps parents find an environment where they can trust that their child will be safe, respected and nurtured. We try to make things easier for parents and help them focus on choosing the best childcare provider for their family.

ITFDC takes great pride in the expertise and professionalism of our providers - a special group of individuals who are committed to every child they meet. Each provider participates in ongoing training and education on topics related to childhood development.
